Roads and Highways

Saket has been involved in construction of Highways, City roads and Airport Runways for the past 25 years and has successfully completed various projects for a variety of clients.

Bridges and Flyovers

Saket has successfully completed Bridges ranging from River Bridges, Railway Over Bridges, Flyovers and Foot Over Bridges.

Buildings

Saket has undertaken building projects including civil works and retrofitting interior works for clients such as ONGC, NMMC and MCGM.

Microtunneling

Saket are pioneers in undertaking micro tunneling works, especially for sewerage networks in urban areas such as Mumbai city.

Aggregate Production

Saket has established stone quarries and has successfully managed operations for commercial supplies of aggregates to various infrastructure in and around MMRDA.

Mechanised Mastic

Saket introduced the concept of mechanised mastic in India in 2006 and has successfully completed various projects using the technology. The technology was introduced under a tie up with a Switzerland based construction company that supported the introduction and implementation of the technology in the Indian market.
